

## MEDICARE SUPPLEMENT INSURANCE

Understanding Medicare supplement insurance policies and Medicare is now easy. I will listen to people who are ready for Medicare and explain what Medicare supplements can do for them. By listening, I can educate people about their choices. I can help you, too.

Take the first step and make an appointment to meet so I can show you how Medicare and a Medicare supplement insurance policy work together to help pay your medical bills.

We respect your right to privacy, so please contact me at (630) 896-6603 or complete the information below and fax back to our office at (630) 896-1758. I will then call to set an appointment at your convenience, at your home or our office. There is no cost or obligation.
